

- **What have I worked on?**

Hanyu, Israel: work on preparing and labeling the training data for the classifier

Hsin-Hung: work on the CNN binary classifier, which uses pretrained model VGG16.

- **What will I be working on next?**

We will run the classifier through the images and classify them into two different folders. We will also combine the script and the classifier, so it's easier to run the whole process.

- **Have I run into any issues? Do I need help?**

N/A

- **Have I talked to the client recently? When are we meeting with them next?**

Yes, we meeting them next Friday.
