Scrum report for the week of 12/6

What have we worked on?
- Completed the Final Presentation
- Fixing logical errors in the code and making income & population calculations more robust

What will we be working on next?
- Completing work for the final deliverable

Have we run into any issues? Do we need help?
- We ran into an issue where an assumption we had previously made was faulty (will be detailed in final deliverable)

Have we talked to the client recently? When are we meeting with them next?
- Last spoken at the final presentation and got great feedback!
